Subject: Correction of continuity data

How do I get the continuity data corrected on a new application? The attorney of record called and said that it is correct in the declaration but not in the cross-referencing which resulted in the incorrect serial number showing up on PALM.

http://neo.uspto.gov/cgi-bin/contData.pl?APPL_ID=09885568

Hence for application number 09/885,568 the correct parent should be 09/696,378 instead of 09/698,378. The 5th digit from the left should be corrected from 8 to 6.
